

HOME BLOOD SUGAR TESTING FOR DIABETICS

Basically, the owners can use the human lancets anywhere there is hairless skin, or they can apply a dab of Vaseline to keep the blood drop from being wicked up by the surrounding hairs. All you need is a tiny drop of blood on the skin for the new low volume glucometers.

Home testing info:

Dogs and cats: <http://www.sugarcats.net/sites/harry/bgtest.htm>

dogs: <http://www.petdiabetes.com/blood.htm>

cats: <http://www.felinediabetes.com/bg-test.htm>

thoughts no home testing: <http://www.petdiabetes.com/thoughts.htm>

Illustrated home testing:

Cat ear prick: <http://www.sugarcats.net/sites/harry/earprick.html>

Cat ear prick: <http://www.sugarcats.net/sites/harry/fasttake.html>

Dog lip prick: <http://www.sugarcats.net/sites/harry/lipprick.html>

Dog tail prick: <http://www.petdiabetes.com/bloodtail.html>

Dog lip prick: <http://www.petdiabetes.com/bloodlip.html>

elbow callus works, too.

Home Testing (really good-includes a movie):
